RE: POLYPROPYLENE MANHOLE RISER  
PROVISIONAL APPROVAL  
QPL CATEGORY Z309

Dear Mr. Turner:

The Department has completed its evaluation of the subject product and based on the information submitted, will provisionally approve it for inclusion on the Qualified Products List (QPL) and use on our projects.

This approval is not project specific and the contractor is therefore required to provide shop drawings for the design and installation for each individual project on which the system is proposed for use. This device will be eligible for full approval at such time a specific design standard or specification is developed. The Department assumes no responsibility for the performance of this product. This product shall be removed from the QPL if inadequate field performance exists or if the product varies from the data as originally submitted.

This product will be placed on the QPL and be subject to current Department policy and procedures. If the subject product is altered in any way, this office must be notified and the material re-evaluated prior to use. You are also required to notify this office within 30 days of any change of address.
